Test Case Register

Requirement-linked cases and recorded execution status

Execution snapshot

Test branch: feature/TEST-042-final-testing-deliverables. PDF generation source SHA: fc87f2c.

Register rows: 663 | Passed: 117 | Failed: 0 | Skipped: 0 | Not Run: 546 | Not Mapped: 0.

Evidence metadata: run=local-TEST-042; test SHA=fc87f2c; backend run=local-backend-TEST-042; backend SHA=8cb633c. Historical local JUnit results without a captured source SHA are not attributed to the current commit.

Actual output is represented by the recorded execution status and JUnit report reference. Not Run rows are not treated as passes. Detailed case source, preconditions, and expected behavior remain in the Markdown catalogs.

Case-by-case register

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-COURSE-022	Teacher portal dashboard is available to teachers	Read dashboard	TeacherPortalAuthorizationIT#shouldAllowTeacherToReadDashboardAndSearch	integration / high	Course Service and teacher credentials	Expected: 200 success response with data | Actual: Not executed in this run | Status: Not Run
TC-COURSE-023	Teacher portal search is available to teachers	Search portal records	TeacherPortalAuthorizationIT#shouldAllowTeacherToReadDashboardAndSearch	integration / high	Course Service and teacher credentials	Expected: 200 success response with data | Actual: Not executed in this run | Status: Not Run
TC-COURSE-024	Teacher portal protected reads require authentication	Unauthenticated dashboard and search	TeacherPortalAuthorizationIT#shouldRejectUnauthenticatedDashboardAndSearch	security / high	Course Service	Expected: 401 Unauthorized | Actual: Not executed in this run | Status: Not Run
TC-COURSE-025	Teacher portal reads reject student role	Student denied on teacher routes	TeacherPortalAuthorizationIT#shouldRejectStudentFromTeacherPortalReads	security / high	Course Service and student credentials	Expected: 403 Forbidden | Actual: Not executed in this run | Status: Not Run
TC-COURSE-026	Teacher portal client rejects missing required inputs	Validate portal identifiers and query	CourseClientTest#shouldRejectBlankCourseIdForLookupUpdateAndDelete	unit / medium	None	Expected: IllegalArgumentException for blank values | Actual: Passed; see JUnit report | Status: Passed
TC-COURSE-027	Students cannot write course content	Student denied course content mutations	CourseServiceAuthorizationMatrixIT#shouldDenyStudentAllCourseContentMutations	security / high	Course Service and student credentials	Expected: 403 Forbidden for all tested mutation routes | Actual: Not executed in this run | Status: Not Run
TC-COURSE-028	Grade administration is restricted to admins	Teacher denied grade and monthly fee administration	CourseServiceAuthorizationMatrixIT#shouldRestrictGradeAdministrationToAdministrators	security / high	Course Service and teacher credentials	Expected: 403 Forbidden for all grade administration routes | Actual: Not executed in this run | Status: Not Run
TC-COURSE-029	Course content and grade routes require authentication	Unauthenticated protected-route checks	CourseServiceAuthorizationMatrixIT#shouldRequireAuthenticationForCourseContentAndGradeAdministration	security / high	Course Service	Expected: 401 Unauthorized | Actual: Not executed in this run | Status: Not Run
TC-COURSE-030	Announcement and progress routes follow student-role rules	Student success and teacher denial	CourseServiceAuthorizationMatrixIT#shouldKeepStudentProgressAndAnnouncementsStudentOnly	security / high	Course Service and student/teacher credentials	Expected: Student succeeds and teacher is denied | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-015-09	Completed attendance sessions reject additional marks	Mark after completing a session	AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession	integration / high	Attendance Service plus enrolled-student fixture	Expected: 409 Conflict and no state change | Actual: Not executed in this run | Status: Not Run
TC-TEST-015-10	Cancelled attendance sessions reject completion and marks	Attempt transitions after cancellation	AttendanceSessionWorkflowIT#teacherCanCancelOpenSessionAndCancelledSessionCannotBeCompleted	integration / high	Attendance Service plus enrolled-student fixture	Expected: 409 Conflict | Actual: Not executed in this run | Status: Not Run
TC-TEST-015-11	Incomplete attendance sessions cannot be completed	Complete while records remain NOT_MARKED	AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession	integration / high	Attendance Service plus course containing enrolled students	Expected: 409 Conflict and session remains OPEN | Actual: Not executed in this run | Status: Not Run
TC-TEST-015-12	Attendance batch rejects unknown or duplicate student records	Mark out-of-session student and duplicate batch	AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession	integration / high	Attendance Service plus enrolled-student fixture	Expected: 404 for unknown student and 400 for duplicate student batch | Actual: Not executed in this run | Status: Not Run
TC-TEST-015-13	Attendance batch rejects NOT_MARKED as a submitted status	Attempt to submit the initial-only NOT_MARKED value	AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession	integration / high	Attendance Service plus enrolled-student fixture	Expected: 400 Bad Request | Actual: Not executed in this run | Status: Not Run
TC-TEST-015-14	Student summary counts and percentage are internally consistent	Validate student summary aggregates	AttendanceSummaryIT#studentCanReadOwnCourseSummary	integration / high	Attendance Service and course fixture	Expected: Counts match and percentage is correctly rounded | Actual: Not executed in this run | Status: Not Run
TC-TEST-015-15	Teacher student-summary counts and percentage are internally consistent	Validate teacher summary aggregates	AttendanceSummaryIT#teacherCanReadStudentCourseSummary	integration / high	Attendance Service plus teacher student and course fixtures	Expected: Requested student/course and aggregate arithmetic match | Actual: Not executed in this run | Status: Not Run
TC-TEST-015-16	Teacher cannot list sessions for another teacher course	Reject cross-teacher course access	AttendanceAuthenticationIT#teacherCannotListSessionsForAnotherTeachersCourse	security / high	Attendance Service; TEST_ATTENDANCE_COURSE owned by primary teacher and distinct secondary teacher credentials	Expected: 403 Forbidden | Actual: Not executed in this run | Status: Not Run
TC-TEST-011-19	Assignment partial update preserves omitted fields	PATCH assignment title while draft	AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment	integration / high	Assignment Service with write fixtures enabled	Expected: Changed field persists and omitted fields are unchanged | Actual: Not executed in this run | Status: Not Run
TC-TEST-011-20	Student reads only eligible assignments in an enrolled course	Read paged student assignment list filtered by course	StudentAssignmentIT#studentCanReadFilteredPagedAssignmentsForAnEnrolledCourse	integration / high	Assignment and Enrollment Services plus matching student/course fixtures	Expected: 200 with valid page metadata and no DRAFT entries | Actual: Not executed in this run | Status: Not Run
TC-TEST-011-21	Student assignment query rejects invalid page/date ranges	Invalid page size and reversed due-date range	StudentAssignmentIT#studentAssignmentFiltersAndPagingRejectInvalidRanges	validation / medium	Assignment Service and student credentials	Expected: 400 Bad Request | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-011-22	Empty assignment PATCH is rejected	PATCH with no fields	AssignmentAuthenticationIT#rejectsInvalidAssignmentPayloadBeforeCreation	validation / medium	Assignment Service and teacher credentials	Expected: 400 Bad Request | Actual: Not executed in this run | Status: Not Run
TC-TEST-011-23	Assignment attempt penalty and rubric DTO boundaries	Reject invalid attempts penalty and rubric shapes	AssignmentAuthenticationIT#rejectsAssignmentAttemptPenaltyAndRubricValidationBoundaries	validation / high	Assignment Service and teacher credentials	Expected: 400 for attempts below 1 penalty above 100 blank rubric criterion and more than 50 rubric items | Actual: Not executed in this run | Status: Not Run
TC-TEST-011-24	Assignment rubric persistence and partial update	Preserve rubric on update and PATCH	AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment	integration / high	TEST_ASSIGNMENT_WRITE_ENABLED plus course/module fixtures	Expected: Create returns ordered rubric criteria and marks; update and PATCH without rubric retain it | Actual: Not executed in this run | Status: Not Run
TC-TEST-011-25	Assignment grade DTO marks boundaries	Reject missing negative and over-maximum marks	AssignmentAuthenticationIT#rejectsMissingNegativeAndOverMaximumGradeMarksBeforeLookup	validation / high	Assignment Service and teacher credentials	Expected: 400 for missing marks and values below 0 or above 100 before submission lookup | Actual: Not executed in this run | Status: Not Run
TC-TEST-012-13	Assignment multipart upload workflow and cleanup	Upload assignment attachment through Material Service	AssignmentAttachmentWorkflowIT#teacherCanUploadAndCleanUpSyntheticAssignmentAttachment	integration / high	TEST_ATTACHMENT_WRITE_ENABLED plus assignment/course fixtures and Material Service	Expected: 201 upload; list and download metadata verified; attachment and test-created Material are deleted | Actual: Not executed in this run | Status: Not Run
TC-TEST-012-14	Submission multipart upload workflow and cleanup	Upload submission file through Material Service	SubmissionFileWorkflowIT#studentCanUploadAndCleanUpSyntheticSubmissionFile	integration / high	TEST_ATTACHMENT_WRITE_ENABLED plus owned draft submission/course fixtures and Material Service	Expected: 201 upload; list and download metadata verified; student deletes file and admin removes test-created Material | Actual: Not executed in this run | Status: Not Run
TC-TEST-012-15	Multipart attachment routes enforce role access	Reject unauthorized multipart uploads	AssignmentAttachmentAuthenticationIT#multipartUploadRoutesEnforceAuthenticationAndRoles	security / high	Assignment and Material Services	Expected: Anonymous requests return 401; disallowed student/teacher roles return 403 | Actual: Not executed in this run | Status: Not Run
TC-TEST-012-16	Submission-file cross-student ownership	Prevent another student reading or deleting submission files	SubmissionFileWorkflowIT#anotherStudentCannotReadOrDeleteSubmissionFiles	integration / high	TEST_ATTACHMENT_WRITE_ENABLED plus owned draft submission fixture and distinct secondary student credentials	Expected: Other student receives 403 for list download and delete; owner cleans up synthetic file and Material | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-10	Student quiz projection hides correct-answer fields	Read published quiz as student and inspect option fields	QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt	integration / high	Assignment Service and enrolled student fixture	Expected: Student option response omits correctness flags | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-014-11	Quiz attempt starts in progress and records attempt number	Start first attempt	QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt	integration / high	Assignment Service and enrolled student fixture	Expected: 201 with IN_PROGRESS and attempt number one | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-13	Quiz submission calculates score percentage and pass state	Answer correctly and submit attempt	QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt	integration / high	Assignment Service and enrolled student fixture	Expected: Score and percentage match answer key and pass threshold | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-14	Quiz attempt limit is enforced	Start beyond configured maximum attempts	QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt	integration / high	Assignment Service and enrolled student fixture	Expected: 409 Conflict | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-31	Quiz prevents concurrent active attempts	Start another attempt before submitting the first	QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt	integration / high	Assignment Service and enrolled student fixture	Expected: 409 Conflict | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-32	Submitted quiz attempts cannot be resubmitted or changed	Submit twice and try to change a saved answer	QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt	integration / high	Assignment Service and enrolled student fixture	Expected: 409 Conflict | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-33	Unanswered quiz attempt is graded as zero	Submit a second attempt without answers	QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt	integration / medium	Assignment Service and enrolled student fixture	Expected: Zero marks and failed pass state | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-34	Teacher quiz results return each student's latest submitted attempt	Read quiz results after repeated student attempts	QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt	integration / high	TEST_QUIZ_WRITE_ENABLED plus Assignment Course Enrollment and User Services	Expected: Results contain one latest record per student with score percentage pass state name and submittedAt | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-35	Teacher course gradebook lists closed quizzes and results	Read closed quiz gradebook results	QuizManagementIT#teacherCanReadClosedQuizResultsInGradebook	integration / high	TEST_QUIZ_GRADEBOOK_CC _ID and TEST_QUIZ_CLOSED_ID with assigned teacher credentials	Expected: Closed quiz appears with title and result list | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-36	Unauthenticated quiz endpoints reject access	Probe protected quiz routes without credentials	QuizAuthenticationIT#protectedQuizRequestsRejectMissingAuthentication	security / high	Assignment Service and API Gateway	Expected: Protected quiz endpoints return 401 | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-38	Students cannot use teacher quiz management routes	Probe teacher management routes with student credentials	QuizAuthenticationIT#studentCannotUseTeacherQuizManagementEndpoints	security / high	Assignment Service and student credentials	Expected: Teacher management routes return 403 | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-39	Teacher gradebook quiz route validates course identifier	Probe missing and malformed gradebook course IDs	QuizAuthenticationIT#teacherGradebookQuizRouteValidatesRequiredCourseId	validation / medium	Assignment Service and teacher credentials	Expected: Missing and malformed courseId return 400 | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-014-40	Quiz management is restricted to its owning teacher	Reject another teacher reading updating or deleting quiz	QuizManagementIT#anotherTeacherCannotReadOrManag QuizOwnedByTeacher	security / high	Assignment Service and Course Service; TEST_QUIZ_ WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; distinct secondary teacher credentials	Expected: 403 for read update and delete; owner deletes synthetic quiz | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-37	AI quiz generation validates inputs before provider use	Reject invalid generation settings	QuizValidationIT#aiQuizGenerationRejectsInvalidSe ttingsBeforeCallingProvider	validation / medium	Assignment Service and synthetic multipart file	Expected: Zero question count and unsupported question type return 400 without AI provider invocation | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-02	Notification pages expose valid bounded page metadata	Read defaults unread page and later page	NotificationWorkflowIT#userCanRetrievePaginatedAn dUnreadNotifications	integration / high	Notification Service and synthetic user credentials	Expected: Response metadata and item bounds match request | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-05	Notification endpoint rejects out-of-range pagination	Send invalid page and size directly to HTTP endpoint	NotificationValidationIT#httpEndpointRejectsInval idPaginationRanges	validation / high	Notification Service and authenticated user	Expected: 400 Bad Request for invalid page/size | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-06	Unread notification results contain only unread records	Verify unreadOnly records have null readAt	NotificationWorkflowIT#userCanRetrievePaginatedAn dUnreadNotifications	integration / high	Notification Service and synthetic user credentials	Expected: Every returned item is unread | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-08	Notification mark-read is idempotent	Mark same notification read twice	NotificationWorkflowIT#ownerCanMarkReadMarkAllRea dAndDeleteApprovedFixture	integration / medium	One-time disposable notification owned by configured student	Expected: 200 and stable non-null readAt | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-12	Notification mutations are scoped to the recipient	Teacher attempts to mutate student-owned notification	NotificationOwnershipIT#anotherUserCannotMarkOrDe leteAStudentOwnedNotification	security / high	Notification Service and student-owned notification fixture	Expected: 404 for cross-user mark/delete attempts | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-14	Malformed notification identifier returns bad request	Use invalid UUID in mark-read route	NotificationValidationIT#unknownAndMalformedNotif icationIdsReturnDocumentedClientErrors	validation / medium	Notification Service and authenticated user	Expected: 400 Bad Request | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-15	Unknown notification identifier returns not found	Mark/delete unknown notification	NotificationValidationIT#unknownAndMalformedNotif icationIdsReturnDocumentedClientErrors	validation / medium	Notification Service and authenticated user	Expected: 404 Not Found | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-02	Payment initiation returns the documented pending response	Start a course payment and inspect safe response data	PaymentStudentIT#studentCanStartAndReadOwnCourseP ayment	integration / high	Test Stripe mode and approved payable course/student fixture	Expected: 201 with positive amount three-letter currency PENDING and client secret | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-03	Student payment history contains the initiated payment	Read own payment list after initiation	PaymentStudentIT#studentCanStartAndReadOwnCourseP ayment	integration / high	Payment Service and test-mode PaymentIntent	Expected: 200 and payment ID appears in own list | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-018-04	Student payment detail matches payment initiation	Read own payment details	PaymentStudentIT#studentCanStartAndReadOwnCoursePayment	integration / high	Payment Service and test-mode payment	Expected: Payment/course/status/provider fields match | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-05	Student payment status agrees with payment detail	Read status endpoint for initiated payment	PaymentStudentIT#studentCanStartAndReadOwnCoursePayment	integration / high	Payment Service and test-mode payment	Expected: Payment ID/status match detail resource | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-06	Payment detail is private to its owning student	Second student attempts to read another student's payment	PaymentStudentIT#studentCanStartAndReadOwnCoursePayment	security / high	Second student credentials and matching ID fixture optional	Expected: Other user's list omits payment and detail/status return 404 | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-07	Admin payment listing returns valid page metadata	Read admin payment page	PaymentAdminIT#administratorCanListFilterAndInspectPayments	integration / high	Payment Service and admin credentials	Expected: Page number/size/total count and content bounds are valid | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-08	Admin payment filters return matching records	Filter by student course status date and payment reference	PaymentAdminIT#administratorCanListFilterAndInspectPayments	integration / high	Payment Service and approved payment fixtures	Expected: Every returned record matches requested filter values | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-12	Admin refund changes a dedicated successful payment to refunded	Refund the configured one-time payment fixture	PaymentAdminIT#administratorCanInspectAndSafelyRefundAnApprovedTestPayment	integration / high	TEST_PAYMENT_WRITE_ENA=true and TEST_PAYMENT_REFUND_ID with test-mode Stripe refund support	Expected: 200 REFUNDED and provider refund metadata persists | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-14	Overlong refund reason returns bad request	Submit a reason exceeding 500 characters	PaymentValidationIT#refundReasonOverLimitReturnsBadRequest	validation / medium	Payment Service and admin credentials	Expected: 400 Bad Request | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-18	Invalid payment IDs and input return exact client errors	Submit malformed/missing IDs and unknown payment IDs	PaymentValidationIT#invalidPaymentRequestsReturnExactClientErrorsOrNotFoundResponses	validation / high	Payment Service and student credentials	Expected: 400 for invalid input and 404 for unknown payment | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-27	Invalid admin payment filters return bad request	Reverse dates and submit invalid status/student UUID	PaymentValidationIT#invalidAdminFilterValuesReturnBadRequest	validation / high	Payment Service and admin credentials	Expected: 400 Bad Request | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-29	Unknown admin payment detail/refund IDs return not found	Request unknown admin detail and refund	PaymentValidationIT#invalidAdminFilterValuesReturnBadRequest	validation / medium	Payment Service and admin credentials	Expected: 404 Not Found | Actual: Not executed in this run | Status: Not Run
TC-AUTH-RECOVERY-001	Unknown password reset account is not disclosed	Generic reset request	AuthenticationRecoveryIT#shouldReturnGenericResultForUnknownPasswordResetAccount	security / high	Auth Service and Gateway	Expected: 200 generic response without supplied account value | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-AUTH-RECOVERY-002	Invalid password reset OTP/token is rejected	Reject invalid recovery credentials	AuthenticationRecoveryIT#shouldRejectInvalidPasswordResetOtpAndToken	validation / high	Auth Service and Gateway	Expected: Client error for invalid OTP and token | Actual: Not executed in this run | Status: Not Run
TC-AUTH-JWKS-001	Public JWKS endpoint returns signing keys	Read signing-key document	AuthenticationRecoveryIT#shouldExposePublicJwksDocument	integration / high	Auth Service and Gateway	Expected: 200 response with keys array | Actual: Not executed in this run | Status: Not Run
TC-COURSE-031	Teacher portal data endpoints return configured course data	Read directory summary gradebook and analytics	TeacherPortalDataIT#shouldReturnDirectorySummaryGradebookAndAnalyticsForConfiguredCourse	integration / high	Course Service teacher-owned course enrolled student	Expected: 200 successful response with data | Actual: Not executed in this run | Status: Not Run
TC-CAL-017	Venue listing requires authentication	Read venue list	CalendarVenueAuthorizationIT#shouldAllowAuthenticatedUsersToListVenues	security / high	Calendar Service and student credentials	Expected: 200 with data; unauthenticated 401 checked separately | Actual: Not executed in this run | Status: Not Run
TC-CAL-018	Only administrators can create venues	Deny non-admin venue creation	CalendarVenueAuthorizationIT#shouldRestrictVenueCreationToAdministrators	security / high	Calendar Service and student/teacher credentials	Expected: 401/403 without creating data | Actual: Not executed in this run | Status: Not Run
TC-CAL-019	Venue input is validated	Reject empty venue fields	CalendarVenueAuthorizationIT#shouldRejectInvalidVenueDataForAdministrator	validation / medium	Calendar Service and admin credentials	Expected: 400 Bad Request | Actual: Not executed in this run | Status: Not Run
TC-CAL-020	Teacher can read updated event details	Create update and retrieve event	CalendarEventWorkflowIT#shouldAllowTeacherToCreateUpdateAndReadAnEvent	integration / high	Calendar Service and teacher credentials; disposable event created by test	Expected: Read-after-write returns matching event ID and updated title; event cancelled in cleanup | Actual: Not executed in this run | Status: Not Run
TC-CAL-021	Unknown event detail returns not found	Get unknown event details	CalendarEventWorkflowIT#shouldReturnNotFoundForUnknownEvent	validation / medium	Calendar Service and teacher credentials	Expected: Unknown event detail and update return 404 | Actual: Not executed in this run | Status: Not Run
TC-CAL-022	Calendar event search requires date range	Reject event search without required date parameters	CalendarEventWorkflowIT#shouldRejectEventSearchWithoutRequiredDateRange	integration / medium	Calendar Service and teacher credentials	Expected: Missing required start/end returns 400; valid bounded search is asserted by TC-CAL-008 | Actual: Not executed in this run | Status: Not Run
TC-CAL-023	Calendar event detail requires authentication	Reject anonymous event detail requests	CalendarAuthenticationIT#shouldRejectEventDetailsWithoutAuthentication	security / high	Calendar Service and API Gateway	Expected: 401 Unauthorized | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-CAL-024	Calendar event access requires creator or assigned course teacher	Reject another teacher reading updating or cancelling an unassigned course event	CalendarEventWorkflowIT#anotherTeacherCannotUpdateOrCancelAnUnassignedCourseEvent	security / high	Calendar and Course Services; TEST_CALENDAR_COURSE_I assigned to primary teacher only; distinct secondary teacher credentials	Expected: 404 for read and 403 for update/cancel; owner cleans up event | Actual: Not executed in this run | Status: Not Run
TC-CAL-008	Student event search supplies required date range	Read calendar events in bounded date range	CalendarEventWorkflowIT#shouldAllowStudentToRetrieveCalendarEvents	integration / high	Calendar Service and student credentials	Expected: GET includes required start/end timestamps and returns 200 with successful response data | Actual: Not executed in this run | Status: Not Run
TC-COURSE-032	Teacher can manage course modules and lessons	Module and lesson CRUD lifecycle	CourseContentWorkflowIT#shouldCreateReadUpdateAndDeleteModuleAndLesson	integration / high	Course Service and teacher-owned course	Expected: Created lesson and module are read updated and cleaned up | Actual: Not executed in this run | Status: Not Run
TC-COURSE-033	Teacher can manage course learning-material references	Learning material reference CRUD lifecycle	CourseContentWorkflowIT#shouldCreateReadUpdateAndDeleteLearningMaterialReferences	integration / high	Course Service and teacher-owned course	Expected: Created material lesson and module are read updated and cleaned up | Actual: Not executed in this run | Status: Not Run
TC-COURSE-034	Administrator can manage grades and monthly fees	Grade and monthly fee CRUD lifecycle	CourseGradeWorkflowIT#shouldManageGradeAndMonthlyFeeThenDeleteCreatedRecords	integration / high	Course Service and TEST_COURSE_GRADE_WRITE_ENABLrue	Expected: Created grade and fee are cleaned up | Actual: Not executed in this run | Status: Not Run
TC-COURSE-035	Students can read their announcements and progress	Student self-service routes and role validation	CourseAnnouncementsProgressIT#shouldAllowStudentsToReadOwnAnnouncementsAndProgress	integration / high	Course Service and student credentials	Expected: 200 successful data response | Actual: Not executed in this run | Status: Not Run
TC-COURSE-036	Enrolled students can read course progress	Course-specific progress read	CourseAnnouncementsProgressIT#shouldReadProgressForAnEnrolledStudentCourseFixture	integration / high	Course Service and TEST_STUDENT_PROGRESS_COURSE	Expected: 200 with matching course ID and progress data | Actual: Not executed in this run | Status: Not Run
TC-COURSE-037	Teacher creates course announcement	Announcement create success	CourseAnnouncementsProgressIT#shouldCreateAnnouncementForApprovedTeacherCourseFixture	integration / medium	TEST_COURSE_ANNOUNCEMRITE_ENABLED and TEST_TEAHER_PORTAL_COURSE_ID	Expected: 201 with course and title; persistent synthetic record | Actual: Not executed in this run | Status: Not Run
TC-COURSE-038	Student updates lesson completion	Student lesson progress update and restore	CourseAnnouncementsProgressIT#shouldUpdateAndRestoreLessonProgressForApprovedStudentFixture	integration / medium	TEST_STUDENT_PROGRESS_E_ENABLED plus enrolled course and lesson fixture IDs	Expected: 200 with lesson/course and progress; prior completion restored | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-COURSE-039	Teacher uploads module and lesson materials	Cross-service course content file upload	CourseContentWorkflowIT#shouldUploadModuleAndLessonMaterialsAndAssociateThemAcrossServices	integration / high	TEST_COURSE_CONTENT_UI _WRITE_ENABLED plus teacher-owned course and Course/Material services	Expected: Uploaded files are associated with module/lesson/course and synthetic records are cleaned up | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-01	Student self-enrollment creates pending enrollment	Self-enroll with free course	EnrollmentAuthenticationIT#shouldSupportStudentSelfEnrollmentWhenWriteFixturesAreExplicitlyEnabled	integration / high	TEST_ENROLLMENT_WRITE_ LED and verified free TEST _ENROLLMENT_FREE_COURS	Expected: 201 pending enrollment membership true and created record deleted | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-02	Student reads own active course IDs	Own course list	EnrollmentAuthenticationIT#shouldAllowStudentToReadOwnActiveCourseIds	integration / medium	Enrollment read fixtures and student credentials	Expected: 200 with data | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-03	Enrollment membership checks	Existing membership across roles	EnrollmentAuthenticationIT#shouldAllowStudentTeacherAndAdminToCheckMembership	integration / medium	Enrollment read fixtures	Expected: Configured existing membership is true for student teacher admin and super admin | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-04	Admin creates enrollment with selected status	Admin enrollment lifecycle	EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled	integration / high	TEST_ENROLLMENT_WRITE_ LED and unused alternate course	Expected: 201 pending enrollment and cleanup | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-05	Admin lists active enrollments	Admin active enrollment list	EnrollmentAuthenticationIT#shouldAllowAdminToListActiveAndUnenrolledStudents	integration / medium	Enrollment Service and admin credentials	Expected: 200 with data | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-06	Admin updates enrollment status	Pending approved rejected transitions	EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled	integration / high	TEST_ENROLLMENT_WRITE_ LED and unused alternate course	Expected: 200 for each requested status | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-07	Teacher reads course student and enrollment lists	Teacher course enrollment reads	EnrollmentAuthenticationIT#shouldAllowTeacherToListStudentsByCourse	integration / high	Owned course fixture and teacher credentials	Expected: 200 student IDs and active enrollment records | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-08	Admin lists unenrolled students	Unenrolled student listing	EnrollmentAuthenticationIT#shouldAllowAdminToListActiveAndUnenrolledStudents	integration / medium	Enrollment Service and admin credentials	Expected: 200 with data | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-09	Enrollment management role restrictions	Deny student and teacher management actions	EnrollmentAuthenticationIT#shouldRejectStudentsAndTeachersFromManagingEnrollments	security / high	Enrollment Service and student/teacher/admin credentials	Expected: Restricted management operations return documented 403/404 responses | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-10	Enrollment routes require authentication	Protected endpoint matrix	EnrollmentAuthenticationIT#shouldRejectProtectedEndpointsWithoutAuthentication	security / high	Enrollment Service	Expected: 401 for protected endpoints | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-010-11	Enrollment input validation	Invalid create update and self-enroll payloads	EnrollmentAuthenticationIT#shouldRejectInvalidEnrollmentRequests	validation / medium	Enrollment Service and admin/student credentials	Expected: 400 client errors | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-12	Unknown enrollment update and deletion	Unknown enrollment identifiers	EnrollmentAuthenticationIT#shouldReturnNotFoundForUnknownEnrollmentUpdate	integration / medium	Enrollment Service and admin credentials	Expected: Not found or client error without 5xx | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-13	Unknown membership returns false	Unknown student course pair	EnrollmentAuthenticationIT#shouldReturnFalseForUnknownMembershipCombination	integration / low	Enrollment Service and admin credentials	Expected: 200 false | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-14	Enrollment API client rejects invalid IDs	Client path validation	EnrollmentClientTest#shouldRejectBlankPathIdentifiers	unit / low	None	Expected: IllegalArgumentException for blank identifiers | Actual: Passed; see JUnit report | Status: Passed
TC-TEST-010-15	Enrollment service URL configuration is parsed	Parse enrollment service configuration	TestEnvironmentConfigurationTest#shouldParseEnrolmentServiceConfigurationWhenEnrollmentTestingIsEnabled	unit / low	None	Expected: Required services and enrollment URL are parsed | Actual: Passed; see JUnit report | Status: Passed
TC-TEST-010-16	Admin soft-deletes created enrollment	Delete and membership removal	EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled	integration / high	TEST_ENROLLMENT_WRITE_LED and unused alternate course	Expected: 200 and no active membership or course-list entry | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-17	Admin updates enrollment status and course list	Pending approved rejected and course transitions	EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled	integration / high	TEST_ENROLLMENT_WRITE_LED and two unused alternate courses	Expected: 200 statuses and membership follows changed course list | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-18	Admin deletes enrollment and removes active membership	Soft delete created enrollment	EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled	integration / high	TEST_ENROLLMENT_WRITE_LED and alternate courses without active communication groups	Expected: Membership false and created ID absent from both active course lists | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-19	Enrollment write workflow cleans up its created records	Admin-created enrollment is removed by test cleanup	EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled	integration / high	Opt-in non-production fixtures and Communication Service	Expected: Only test-created enrollment IDs are soft-deleted | Actual: Not executed in this run | Status: Not Run
TC-TEST-010-20	Enrollment role matrix includes super admin	Check membership access for configured roles	EnrollmentAuthenticationIT#shouldAllowStudentTeacherAndAdminToCheckMembership	security / high	Student teacher admin and super admin credentials	Expected: Configured roles receive 200 for allowed membership read | Actual: Not executed in this run | Status: Not Run

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-CAL-015	SRS-NOT-EXPLICIT	Event creation validates chronological date range	CalendarEventWorkflowIT#shouldRejectEventWithInvalidDateRange	validation / high	Calendar Service and Teacher credentials	Expected: End time before start time returns HTTP 400 | Actual: Not executed in this run | Status: Not Run
TC-CAL-016	SRS-NOT-EXPLICIT	Unknown event identifiers return not found	CalendarEventWorkflowIT#shouldReturnNotFoundForUnknownEvent	integration / high	Calendar Service and Teacher credentials	Expected: Unknown event update and detail requests return HTTP 404 | Actual: Not executed in this run | Status: Not Run
TC-COURSE-013	SRS-NOT-EXPLICIT	Course client construction with configured API client	CourseClientTest#shouldCreateClientWithConfiguredApiClient	unit / medium	No backend required	Expected: Course client is instantiated with the valid configured API client | Actual: Passed; see JUnit report | Status: Passed
TC-COURSE-014	SRS-NOT-EXPLICIT	Course service environment URL configuration	TestEnvironmentConfigurationTest#shouldParseCourseServiceConfigurationWhenCourseTestingIsEnabled	unit / medium	Deterministic environment map; no backend required	Expected: Configured Course Service URL and required-service list are parsed correctly | Actual: Passed; see JUnit report | Status: Passed
TC-TEST-015-26	SRS-NOT-EXPLICIT	Student with no records in a known course receives a zero summary	AttendanceSummaryIT#studentWithNoAttendanceRecordsReceivesZeroSummary	integration / medium	Known TEST_ATTENDANCE_COURSE and TEST_ATTENDANCE_EMP SUMMARY_STUDENT_ID; Student credentials matching that ID	Expected: Response identifies the configured student/course and reports zero session, attendance, and percentage totals | Actual: Not executed in this run | Status: Not Run
TC-TEST-015-27	SRS-NOT-EXPLICIT	Attendance rejects overlong session title or record remarks	AttendanceValidationIT#rejectsOverlongSessionTitleAndAttendanceRemarks	validation / medium	Valid TEST_ATTENDANCE_COURSE and Teacher credentials	Expected: Session title above 150 characters and remarks above 500 characters each return HTTP 400 | Actual: Not executed in this run | Status: Not Run
TC-TEST-015-33	SRS-NOT-EXPLICIT	Unknown course or student summary identifiers return not found	AttendanceValidationIT#unknownAttendanceResourcesReturnNotFound	integration / medium	Attendance Service and Teacher credentials	Expected: Unknown course and unknown student/course summary requests return HTTP 404 | Actual: Not executed in this run | Status: Not Run
TC-TEST-016-01	SRS-NOT-EXPLICIT	Communication and required service readiness	CommunicationAuthenticationIT#protectedCommunicationRequestsRejectMissingAuthentication	integration / high	API Gateway, Auth Service, Communication Service	Expected: JUnit setup verifies required services and Communication Service readiness before the protected-route checks | Actual: Not executed in this run | Status: Not Run
TC-TEST-016-02	SRS-NOT-EXPLICIT	Authenticated user identity is returned by /me	CommunicationAuthenticationIT#authenticatedUserCanReadTheirCommunicationIdentity	integration / high	Communication Service and Student credentials	Expected: Authenticated /me response returns a parseable userId | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-016-03	SRS-NOT-EXPLICIT	Communication /me requires authentication	CommunicationAuthenticationIT#protectedCommunicationRequestsRejectMissingAuthentication	security / high	Communication Service; no credentials	Expected: Unauthenticated /me request returns HTTP 401 | Actual: Not executed in this run | Status: Not Run
TC-TEST-016-23	SRS-NOT-EXPLICIT	Sender deletes own message for self	CommunicationMessageWorkflowIT#teacherCanDeleteOwnMessageForSelfWithoutHidingItFromOthers	integration / high	TEST_COMMUNICATION_WRITE_ENABLED; active group membership; Teacher credentials	Expected: ME delete returns HTTP 200 and the message is absent from the sender history; test cleanup deletes it for everyone | Actual: Not executed in this run | Status: Not Run
TC-TEST-016-26	SRS-NOT-EXPLICIT	Authenticated user reads own settings	CommunicationSettingsIT#authenticatedUserCanReadAndUpdateOwnSettings	integration / high	Communication Service and Student credentials	Expected: Settings response succeeds and the test restores original values after update | Actual: Not executed in this run | Status: Not Run
TC-TEST-016-27	SRS-NOT-EXPLICIT	Authenticated user updates own settings	CommunicationSettingsIT#authenticatedUserCanReadAndUpdateOwnSettings	integration / high	Communication Service and Student credentials	Expected: Settings update succeeds and prior preferences are restored during cleanup | Actual: Not executed in this run | Status: Not Run
TC-TEST-016-28	SRS-NOT-EXPLICIT	Settings changes are isolated by authenticated user	CommunicationSettingsIT#settingsChangesAreIsolatedToTheAuthenticatedUser	integration / high	Distinct Student and SECONDARY_STUDENT credentials	Expected: Changing the primary student setting leaves the secondary student settings unchanged; primary setting is restored | Actual: Not executed in this run | Status: Not Run
TC-COURSE-001	SRS-NOT-EXPLICIT	Course Service readiness before integration request	CourseServiceRootIT#authenticatedUserCanReadCourseServiceRootGreeting	integration / high	API Gateway, Auth Service, Course Service, Teacher credentials	Expected: Course test setup verifies Course Service readiness before the authenticated root request | Actual: Not executed in this run | Status: Not Run
TEST-013-01	SRS-NOT-EXPLICIT	Enrolled student uploads a submission attachment	MaterialLifecycleIT#enrolledStudentCanUploadSubmissionAttachmentMaterial	integration / high	TEST_MATERIAL_WRITE_ENAD; enrolled Student, course, and material fixtures	Expected: Student upload returns HTTP 201 with SUBMISSION_ATTACHMENT purpose and a material ID | Actual: Not executed in this run | Status: Not Run
TEST-013-02	SRS-NOT-EXPLICIT	Teacher uploads learning material for an owned course	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	integration / high	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Teacher upload returns HTTP 201 for LEARNING_MATERIAL | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TEST-013-03	SRS-NOT-EXPLICIT	Admin uploads and deletes synthetic material	MaterialLifecycleIT#administratorCanUploadAndDeleteSyntheticMaterial	integration / high	TEST_MATERIAL_WRITE_ENAD; approved course and Admin credentials	Expected: Admin creates a synthetic material and deletes it successfully | Actual: Not executed in this run | Status: Not Run
TEST-013-04	SRS-NOT-EXPLICIT	Material upload response includes file metadata	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	integration / high	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Response includes material ID, original filename, content type, positive file size, purpose, and UPLOADED status | Actual: Not executed in this run | Status: Not Run
TEST-013-05	SRS-NOT-EXPLICIT	Authorized teacher retrieves uploaded material	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	integration / high	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Retrieved material ID and title match the synthetic upload | Actual: Not executed in this run | Status: Not Run
TEST-013-06	SRS-NOT-EXPLICIT	Teacher lists uploaded material	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	integration / high	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: List response includes the uploaded material | Actual: Not executed in this run | Status: Not Run
TEST-013-07	SRS-NOT-EXPLICIT	Material list honors page size	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	integration / medium	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: List response reports requested page size and contains the uploaded result | Actual: Not executed in this run | Status: Not Run
TEST-013-08	SRS-NOT-EXPLICIT	Material title search returns uploaded material	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	integration / medium	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Search by unique title returns the uploaded material ID | Actual: Not executed in this run | Status: Not Run
TEST-013-09	SRS-NOT-EXPLICIT	Material list filters by course	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	integration / medium	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Course-filtered result contains uploaded material with matching course ID | Actual: Not executed in this run | Status: Not Run
TEST-013-10	SRS-NOT-EXPLICIT	Material download response provides URL and expiry	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	integration / high	TEST_MATERIAL_WRITE_ENAD; configured Material storage	Expected: Download response includes material ID, download URL, and expiry metadata | Actual: Not executed in this run | Status: Not Run
TEST-013-11	SRS-NOT-EXPLICIT	Download response does not expose storage keys	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	security / high	TEST_MATERIAL_WRITE_ENAD; configured Material storage	Expected: Download metadata has no storageKey or provider credentials | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TEST-013-12	SRS-NOT-EXPLICIT	Teacher updates managed material metadata	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	integration / high	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Updated title and description are returned | Actual: Not executed in this run | Status: Not Run
TEST-013-13	SRS-NOT-EXPLICIT	Teacher archives managed material	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	integration / high	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Archive returns status ARCHIVED and archived filter includes the material | Actual: Not executed in this run | Status: Not Run
TEST-013-14	SRS-NOT-EXPLICIT	Teacher deletes archived test material	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	integration / high	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Archived synthetic material is deleted successfully | Actual: Not executed in this run | Status: Not Run
TEST-013-15	SRS-NOT-EXPLICIT	Admin performs a non-destructive maintenance audit	MaterialLifecycleIT#adminCanAuditAndRunNonDestructiveCleanup	integration / high	Admin credentials; Material Service	Expected: Audit request returns HTTP 200 and confirms dryRun=true | Actual: Not executed in this run | Status: Not Run
TEST-013-16	SRS-NOT-EXPLICIT	Admin runs cleanup in dry-run mode	MaterialLifecycleIT#adminCanAuditAndRunNonDestructiveCleanup	integration / high	Admin credentials; Material Service	Expected: Cleanup request returns HTTP 200 and confirms dryRun=true | Actual: Not executed in this run | Status: Not Run
TEST-013-18	SRS-NOT-EXPLICIT	Upload without a file is rejected	MaterialLifecycleIT#rejectsInvalidMaterialUploadsAndUpdates	validation / medium	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Multipart upload without a file returns HTTP 400 | Actual: Not executed in this run | Status: Not Run
TEST-013-19	SRS-NOT-EXPLICIT	Empty file upload is rejected	MaterialLifecycleIT#rejectsInvalidMaterialUploadsAndUpdates	validation / medium	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Empty synthetic file upload returns HTTP 400 | Actual: Not executed in this run | Status: Not Run
TEST-013-20	SRS-NOT-EXPLICIT	Unsupported file type is rejected	MaterialLifecycleIT#rejectsInvalidMaterialUploadsAndUpdates	validation / medium	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Unsupported synthetic .bin upload returns HTTP 400 | Actual: Not executed in this run | Status: Not Run
TEST-013-21	SRS-NOT-EXPLICIT	Upload without title is rejected	MaterialLifecycleIT#rejectsInvalidMaterialUploadsAndUpdates	validation / medium	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Upload missing title returns HTTP 400 | Actual: Not executed in this run | Status: Not Run
TEST-013-22	SRS-NOT-EXPLICIT	Upload without course ID is rejected	MaterialLifecycleIT#rejectsInvalidMaterialUploadsAndUpdates	validation / medium	TEST_MATERIAL_WRITE_ENAD; Teacher credentials	Expected: Upload missing course ID returns HTTP 400 | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TEST-013-23	SRS-NOT-EXPLICIT	Empty material update is rejected	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	validation / medium	TEST_MATERIAL_WRITE_ENAD; Teacher-owned course fixture	Expected: Empty update payload for existing material returns HTTP 400 | Actual: Not executed in this run | Status: Not Run
TEST-013-24	SRS-NOT-EXPLICIT	Unknown material retrieval returns not found	MaterialLifecycleIT#unknownMaterialOperationsAreNotReportedAsServerErrors	integration / medium	TEST_MATERIAL_READ_FIXTS; Teacher credentials	Expected: Unknown material read returns HTTP 404 | Actual: Not executed in this run | Status: Not Run
TEST-013-25	SRS-NOT-EXPLICIT	Unknown material download returns not found	MaterialLifecycleIT#unknownMaterialOperationsAreNotReportedAsServerErrors	integration / medium	TEST_MATERIAL_READ_FIXTS; Teacher credentials	Expected: Unknown material download returns HTTP 404 | Actual: Not executed in this run | Status: Not Run
TEST-013-26	SRS-NOT-EXPLICIT	Unknown material update returns not found	MaterialLifecycleIT#unknownMaterialOperationsAreNotReportedAsServerErrors	integration / medium	TEST_MATERIAL_READ_FIXTS; Teacher credentials	Expected: Unknown material update returns HTTP 404 | Actual: Not executed in this run | Status: Not Run
TEST-013-27	SRS-NOT-EXPLICIT	Unknown archive and delete return not found	MaterialLifecycleIT#unknownMaterialOperationsAreNotReportedAsServerErrors	integration / medium	TEST_MATERIAL_READ_FIXTS; Teacher credentials	Expected: Unknown material archive and delete return HTTP 404 | Actual: Not executed in this run | Status: Not Run
TEST-013-28	SRS-NOT-EXPLICIT	Material protected routes require authentication	MaterialAuthenticationIT#rejectsProtectedMaterialRequestsWithoutAuthentication	security / high	Material Service; no credentials	Expected: Protected upload/list/read/download/update/archive/delete/maintenance requests return HTTP 401 | Actual: Not executed in this run | Status: Not Run
TEST-013-29	SRS-NOT-EXPLICIT	Student cannot manage materials or run maintenance	MaterialAuthenticationIT#studentCannotManageMaterialsOrRunMaintenance	security / high	Material Service and Student credentials	Expected: Student material management and maintenance requests return HTTP 403 | Actual: Not executed in this run | Status: Not Run
TEST-013-30	SRS-NOT-EXPLICIT	Temporary material files are cleaned up	MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial	unit/integration / medium	Temporary filesystem access only	Expected: Try-with-resources closes the generated test file and deletes it after the upload lifecycle | Actual: Not executed in this run | Status: Not Run
TEST-013-40	SRS-NOT-EXPLICIT	Teacher cannot run material maintenance	MaterialAuthenticationIT#teacherCannotRunMaintenance	security / high	Material Service and Teacher credentials	Expected: Teacher audit and cleanup requests return HTTP 403 | Actual: Not executed in this run | Status: Not Run
TC-AUTH-ACCESS-003	NFR-SE001; NFR-SE003	Reject expired signed access token	SecurityRegressionIT#expiredSignedAccessTokenIsRejected	security / high	User Service; student credentials; AUTH_JWT_PRIVATE_KEY_BASE64 with synthetic key material	Expected: Expired signed access JWT returns 401 and session logout is attempted | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-017-01	SRS-NOT-EXPLICIT	Verify required services are ready before integration tests	BackendReadinessIT#shouldKeepRequiredBackendServicesReady	integration / high	TEST_ENV_ENABLED=true; configured API Gateway and required backend services	Expected: BeforeAll readiness check completes only when every configured required service is healthy | Actual: Not executed in this run | Status: Not Run
SEC-001	NFR-SE001	Missing bearer token is rejected	SecurityRegressionIT#protectedEndpointsRejectMissingInvalidAndMalformedTokens	security / high	API Gateway and Auth Service	Expected: Protected current-user endpoint returns 401 without a bearer token | Actual: Not executed in this run | Status: Not Run
SEC-002	NFR-SE001	Empty bearer token is rejected	SecurityRegressionIT#protectedEndpointsRejectMissingInvalidAndMalformedTokens	security / high	API Gateway and Auth Service	Expected: Protected current-user endpoint returns 401 for an empty bearer token | Actual: Not executed in this run | Status: Not Run
SEC-003	NFR-SE001	Invalid or malformed bearer token is rejected	SecurityRegressionIT#protectedEndpointsRejectMissingInvalidAndMalformedTokens	security / high	API Gateway and Auth Service	Expected: Protected endpoint returns 401 for malformed token values | Actual: Not executed in this run | Status: Not Run
SEC-004	NFR-SE003	Student cannot access administrator probe	SecurityRegressionIT#studentAndTeacherTokensCannotCrossAdministratorBoundary	security / high	Student credential and User Service	Expected: Administrator probe returns 403 to student | Actual: Not executed in this run | Status: Not Run
SEC-005	NFR-SE003	Teacher cannot access administrator probe	SecurityRegressionIT#studentAndTeacherTokensCannotCrossAdministratorBoundary	security / high	Teacher credential and User Service	Expected: Administrator probe returns 403 to teacher | Actual: Not executed in this run | Status: Not Run
SEC-006	NFR-SE001; NFR-SE004	Authentication error responses do not expose sensitive values	SecurityRegressionIT#protectedErrorResponsesDoNotExposeSensitiveValues	security / high	API Gateway	Expected: 401 response contains no password token bearer header or stack trace markers | Actual: Not executed in this run | Status: Not Run
RES-002	SRS-NOT-EXPLICIT; NFR-SE001	Controlled AI provider failure returns sanitized server error	AiProviderFailureIT#controlledProviderFailureReturnsSanitizedServerError	resilience / high	TEST_RESILIENCE_ENABLED=true; FAULT_INJECTION_ENABLED=true; TEST_PROVIDER_FAILURE_MODE=true; AI Service configured with a controlled failing provider	Expected: Request returns 5xx and does not expose the provider sentinel | Actual: Not executed in this run | Status: Not Run
RES-003	SRS-NOT-EXPLICIT; NFR-SE001	Fault injection modes are disabled by default	SecurityResilienceTestConfigurationTest#securityAndFaultInjectionModesAreDisabledByDefault	unit / medium	None	Expected: Security and fault-injection configuration default to disabled | Actual: Passed; see JUnit report | Status: Passed

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-019-01	SRS-NOT-EXPLICIT	Verify Gateway Auth and Notification services are ready	BackendReadinessIT#shouldKeepRequiredBackendServicesReady	integration / high	TEST_ENV_ENABLED=true; AP Gateway Auth and Notification service URLs configured	Expected: Test fails unless all configured required services respond healthy within readiness timeout | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-03	SRS-NOT-EXPLICIT	Default notification pagination is correct over HTTP	NotificationWorkflowIT#userCanRetrievePaginatedAndUnreadNotifications	integration / high	Notification Service and student credentials	Expected: HTTP response reports page 0 and size 20 | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-04	SRS-NOT-EXPLICIT	Later notification page respects requested bounds	NotificationWorkflowIT#userCanRetrievePaginatedAndUnreadNotifications	integration / medium	Notification Service and student credentials	Expected: HTTP response reports requested page 1 and no more than requested page size | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-07	SRS-NOT-EXPLICIT	Unread count is non-negative and consistent with returned unread records	NotificationWorkflowIT#userCanRetrievePaginatedAndUnreadNotifications	integration / medium	Notification Service and student credentials	Expected: Unread count is non-negative and at least the returned unread-only page size | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-09	SRS-NOT-EXPLICIT	Owner can mark all notifications read	NotificationWorkflowIT#ownerCanMarkReadMarkAllReadAndDeleteApprovedFixture	integration / medium	TEST_NOTIFICATION_WRITE_ABLED=true; approved disposable notification fixture	Expected: Mark-all-read returns 200 and a non-negative changed-record count | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-10	SRS-NOT-EXPLICIT	Owner can delete approved notification	NotificationWorkflowIT#ownerCanMarkReadMarkAllReadAndDeleteApprovedFixture	integration / medium	TEST_NOTIFICATION_WRITE_ABLED=true; approved disposable notification fixture	Expected: Owner receives 200 when deleting the approved notification | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-11	SRS-NOT-EXPLICIT; NFR-SE003	Authenticated users have separate notification collections	NotificationOwnershipIT#twoAuthenticatedUsersReceiveOnlyTheirOwnNotificationCollections	security / high	TEST_NOTIFICATION_ID owne by configured student; student and teacher credentials; Notification Service	Expected: Configured student-owned notification appears in the student's collection and is absent from the teacher's collection | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-13	NFR-SE001	Notification endpoints reject unauthenticated access	NotificationAuthorizationIT#unauthenticatedNotificationRequestsReturnUnauthorized	security / high	Notification Service	Expected: All notification routes return 401 without authentication | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-16	SRS-NOT-EXPLICIT	Notification endpoint rejects invalid pagination	NotificationValidationIT#httpEndpointRejectsInvalidPaginationRanges	validation / high	Notification Service and student credentials	Expected: HTTP endpoint returns 400 for negative page zero size and size above 100 | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-018-01	SRS-NOT-EXPLICIT	Verify Gateway Auth Course Enrollment and Payment services are ready	BackendReadinessIT#shouldKeepRequiredBackendServicesReady	integration / high	TEST_ENV_ENABLED=true; configured required service health URLs	Expected: The test waits for each configured service health endpoint and fails if any remains unavailable | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-09	SRS-NOT-EXPLICIT	Administrator payment pagination returns requested page metadata	PaymentAdminIT#administratorCanListFilterAndInspectPayments	integration / high	Payment Service and Admin credentials	Expected: Page zero default and page one with size one return matching page and size metadata with bounded content | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-10	SRS-NOT-EXPLICIT	Administrator can inspect a selected payment detail	PaymentAdminIT#administratorCanListFilterAndInspectPayments	integration / high	Payment Service; Admin credentials; TEST_PAYMENT_* fixtures	Expected: Admin payment reference filter returns the selected payment ID in the response | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-11	SRS-NOT-EXPLICIT	Administrator can verify a student course payment pair	PaymentAuthorizationIT#administratorCanVerifySuccessfulPaymentForUnknownStudentCoursePair	integration / high	Payment Service and Admin credentials	Expected: Unknown synthetic student/course pair returns 200 with successfulPaymentExists=false | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-13	NFR-SE003	Student and teacher cannot refund payments	PaymentAuthorizationIT#studentsAndTeachersCannotRefundPayments	security / high	Payment Service; Student and Teacher credentials	Expected: Student and teacher refund requests return 403 | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-15	NFR-SE001	Protected payment endpoints reject unauthenticated requests	PaymentAuthorizationIT#unauthenticatedPaymentRequestsReturnUnauthorized	security / high	Payment Service	Expected: Unauthenticated requests to protected payment routes return 401 | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-16	NFR-SE003	Student cannot access administrator payment operations	PaymentAuthorizationIT#studentCanUseOwnEndpointsButCannotUseAdministratorEndpoints	security / high	Payment Service and Student credentials	Expected: Administrator list detail refund and verification routes return 403 to student | Actual: Not executed in this run | Status: Not Run
TC-TEST-018-17	NFR-SE003	Teacher cannot access student or administrator payment operations	PaymentAuthorizationIT#teacherCannotUseStudentOrAdministratorPaymentEndpoints	security / high	Payment Service and Teacher credentials	Expected: Student and administrator payment routes return 403 to teacher | Actual: Not executed in this run | Status: Not Run

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-014-21	NFR-SE001	Invalid maximum attempts is rejected	QuizValidationIT#rejectsInvalidQuizRequests	validation / high	Quiz Service and Teacher credentials	Expected: Zero maximum attempts request returns 400 | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-22	NFR-SE001	Question without options is rejected	QuizValidationIT#rejectsInvalidQuestionAndAnswerRequests	validation / high	Quiz Service and Teacher credentials	Expected: Question request omitting options returns 400 | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-23	NFR-SE001	Question with too few options is rejected	QuizValidationIT#rejectsInvalidQuestionAndAnswerRequests	validation / high	Quiz Service and Teacher credentials	Expected: Single-option multiple-choice question returns 400 | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-24	NFR-SE001	Answer request with missing identifiers is rejected	QuizValidationIT#rejectsInvalidQuestionAndAnswerRequests	validation / high	Quiz Service and Student credentials	Expected: Answer request missing question or selected option identifiers returns 400 | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-25	NFR-SE001	Unknown quiz and question operations return not found	QuizManagementIT#unknownQuizAndQuestionResourceturnNotFound	validation / high	Quiz Service and Teacher credentials	Expected: Unknown quiz and question read update delete publish and create operations return 404 | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-26	NFR-SE001	Unknown attempt answer and submit operations return not found	QuizValidationIT#rejectsInvalidQuestionAndAnswerRequests	validation / high	Quiz Service and Student credentials	Expected: Valid answer and submit operations against unknown attempt IDs return 404 | Actual: Not executed in this run | Status: Not Run
TC-TEST-014-27	SRS-NOT-EXPLICIT	Live quiz integration tests remain disabled by default	IntegrationTestExecutionConditionTest#shouldDisableLiveTestClassesByDefault	unit / high	TEST_ENV_ENABLED omitted or false	Expected: Quiz and other live integration classes are disabled without an explicit environment opt-in | Actual: Passed; see JUnit report | Status: Passed
TC-TEST-014-41	SRS-NOT-EXPLICIT	Verify Gateway Auth Course Enrollment and Assignment dependencies before quiz tests	QuizManagementIT#requiredQuizServicesAreReady	integration / high	TEST_ENV_ENABLED=true; configured Gateway Auth Course Enrollment and Assignment health URLs	Expected: The explicit quiz readiness test fails unless every required dependency is healthy | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-01	SRS-NOT-EXPLICIT	Verify Gateway Auth and User services are ready	UserProfileIT#requiredUserServicesAreReady	integration / high	TEST_ENV_ENABLED=true; configured Gateway Auth and User Service health URLs	Expected: Readiness test fails unless every configured required service responds healthy within the configured timeout | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-021-02	SRS-NOT-EXPLICIT	Public authentication probe is available	AuthenticationIT#publicAndProtectedAuthenticationProbesFollowTheirSecurityRules	integration / medium	API Gateway and User Service	Expected: Public probe returns HTTP 200 and success response without authentication | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-03	NFR-SE001	Protected user endpoints reject missing authentication	UserAuthorizationIT#protectedUserEndpointsRejectMissingAuthentication	security / high	User Service	Expected: Protected profile listing and analytics requests return 401 without credentials | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-04	FR-S001; FR-S002; FR-A001; NFR-SE003	Student and administrator role probes follow access rules	AuthenticationIT#roleProbesMatchStudentAndAdministratorTokens	security / high	Student and Admin credentials; User Service	Expected: Student profile access succeeds student admin listing is denied and admin listing succeeds | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-05	NFR-SE001	Invalid login credentials and payloads are rejected	AuthenticationLoginIT#shouldRejectAnInvalidLoginRequest	security / high	Auth Service; synthetic invalid credentials	Expected: Invalid password login returns the documented client error | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-06	NFR-SE001	Invalid refresh token is rejected	AuthenticationRefreshIT#shouldRejectAnInvalidRefreshToken	security / high	Auth Service; synthetic invalid token	Expected: Invalid refresh token is rejected with the observed contract status | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-07	NFR-SE001	Invalid logout request is rejected safely	AuthenticationIT#invalidAuthenticationPayloadsAreRejectedWithoutSensitiveOutput	security / medium	Auth Service	Expected: Logout request without required data returns 400 | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-08	FR-S005; NFR-SE001; NFR-SE004	Invalid forgot-password email is rejected	AuthenticationIT#invalidAuthenticationPayloadsAreRejectedWithoutSensitiveOutput	validation / medium	Auth Service; malformed synthetic email	Expected: Malformed forgot-password email returns 400 | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-09	FR-S003; NFR-SE002	Authenticated student can retrieve their own profile	UserProfileIT#authenticatedUserCanRetrieveOwnProfileWithoutSensitiveFields	integration / high	User Service and Student credentials	Expected: Current-user request returns 200 for the authenticated profile | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-10	NFR-SE004	Profile response does not expose sensitive fields	UserProfileIT#authenticatedUserCanRetrieveOwnProfileWithoutSensitiveFields	security / high	User Service and Student credentials	Expected: Profile response contains no password refresh token or client secret fields | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-021-11	FR-A001; FR-A002; FR-A003	Administrator can list users by role	UserAdministrationIT#administratorCanListUsersAndReadAnalytics	integration / high	User Service and Admin credentials	Expected: Student and teacher lists contain only entries with the requested role | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-12	FR-A001; FR-A002	Administrator can list students with pagination	UserAdministrationIT#administratorCanListUsersAndReadAnalytics	integration / medium	User Service and Admin credentials	Expected: Student page returns records with STUDENT role | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-13	FR-A001; FR-A003	Administrator can list teachers with pagination	UserAdministrationIT#administratorCanListUsersAndReadAnalytics	integration / medium	User Service and Admin credentials	Expected: Teacher page returns records with TEACHER role | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-14	FR-A004	Administrator can read user registration analytics	UserAdministrationIT#administratorCanListUsersAndReadAnalytics	integration / medium	User Service and Admin credentials	Expected: Registration analytics endpoint returns HTTP 200 | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-15	NFR-SE001	Administrator user mutations validate fields and resource IDs	UserAdministrationIT#administratorOperationsValidateUnknownUsersAndFields	validation / high	User Service and Admin credentials	Expected: Malformed registration and status payloads return 400 and unknown user operations return 404 | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-16	NFR-SE003	Student cannot perform administrator user operations	UserAuthorizationIT#studentsAndTeachersCannotPerformAdministratorOperations	security / high	User Service and Student credentials	Expected: Student listing analytics status registration and delete attempts are denied | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-17	NFR-SE003	Teacher cannot perform administrator user operations	UserAuthorizationIT#studentsAndTeachersCannotPerformAdministratorOperations	security / high	User Service and Teacher credentials	Expected: Teacher listing registration and delete attempts are denied | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-22	SRS-NOT-EXPLICIT; NFR-SE004	Student and teacher existence checks return safe false values for unknown identities	UserValidationIT#invalidUserIdentifiersAndStatusPayloadsAreHandledSafely	validation / high	User Service and Admin credentials	Expected: Unknown student and teacher IDs and malformed student identity return explicit false without details | Actual: Not executed in this run | Status: Not Run
TC-TEST-028-01	SRS-NOT-EXPLICIT; NFR-SE001	Missing or incorrect staging confirmation fails before requests	StagingTargetPolicyTest#rejectsMissingOrIncorrectConfirmationBeforeAnyRequest	unit / high	No network target; policy-only test	Expected: Missing or incorrect confirmation throws configuration error before any HTTP request | Actual: Passed; see JUnit report | Status: Passed

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-028-02	NFR-SE001	Unsafe staging URL is rejected before network access	StagingTargetPolicyTest#rejectsHttpEmbeddedCredentialsQueryAndUnapprovedHosts	unit / high	No network target; policy-only test	Expected: HTTP embedded credentials query string non-443 port and unapproved host are rejected | Actual: Passed; see JUnit report | Status: Passed
TC-TEST-028-03	NFR-SE001	Malformed deployment revision is rejected	StagingTargetPolicyTest#rejectsInvalidDeploymentRevision	unit / high	No network target; policy-only test	Expected: Malformed deployment revision fails closed | Actual: Passed; see JUnit report | Status: Passed
TC-TEST-028-04	NFR-SE001	Staging HTTP probe does not follow cross-host redirects	StagingHttpProbeTest#doesNotFollowRedirectsToAnotherHost	unit / high	Loopback-only synthetic HTTP server	Expected: Probe returns redirect status and does not follow it to another host | Actual: Passed; see JUnit report | Status: Passed
TC-TEST-028-05	NFR-SE001	Staging HTTP probe enforces request timeout	StagingHttpProbeTest#appliesRequestTimeoutWithoutReadingResponseBody	unit / high	Loopback-only synthetic delayed HTTP server	Expected: Probe throws within the configured request timeout | Actual: Passed; see JUnit report | Status: Passed
TC-TEST-028-12	SRS-NOT-EXPLICIT	Default CI does not enable staging smoke tests	IntegrationTestExecutionConditionTest#shouldRequireStagingTargetForStagingSmokeClass	unit / high	STAGING_ENVIRONMENT and TEST_ENV_ENABLED absent	Expected: Staging integration test remains disabled unless explicit staging environment is configured | Actual: Passed; see JUnit report | Status: Passed
TC-TEST-028-13	SRS-NOT-EXPLICIT; NFR-SE001	Production environment is rejected by staging target policy	StagingTargetPolicyTest#rejectsNonStagingEnvironment	unit / high	No network target; policy-only test	Expected: Production environment setting fails closed before any request | Actual: Passed; see JUnit report | Status: Passed
TC-TEST-028-14	NFR-SE001	IP address is rejected as the staging host suffix	StagingTargetPolicyTest#rejectsIpAddressAsStagingHostSuffix	unit / medium	No network target; policy-only test	Expected: IP address host suffix is rejected by target policy | Actual: Passed; see JUnit report | Status: Passed
TC-TEST-021-18	FR-A001; FR-A002; NFR-SE003	Administrator registers a synthetic student account	UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails	integration / high	TEST_USER_WRITE_ENABLE ue; TEST_USER_MAIL_CAPTU _ENABLED=true; local Mailpit API; Admin credentials	Expected: Synthetic student registration returns 201 and created user is deleted during cleanup | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-19	FR-A003; NFR-SE003	Super Admin registers a synthetic administrator account	UserRegistrationWorkflowIT#superAdministratorCanRegisterSyntheticAdministratorAndCaptureInvitation	integration / high	TEST_USER_WRITE_ENABLE ue; TEST_USER_MAIL_CAPTU _ENABLED=true; TEST_SUPEF ADMIN_SUPPORTED=true; Super Admin credentials; local Mailpit API	Expected: Admin registration returns 201 with INVITED status and created account is deleted during cleanup | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-TEST-021-20	FR-A005; NFR-SE004	Invitation and password-reset emails are captured safely	UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails	integration / high	TEST_USER_WRITE_ENABLEue; TEST_USER_MAIL_CAPTU_ENABLED=true; backend SMTP pointed to local Mailpit; local Mailpit API	Expected: Invitation and reset messages reach only the local Mailpit inbox and are deleted during cleanup | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-21	FR-A004; NFR-SE003	Administrator deactivates and reactivates the dedicated test user	UserStatusLifecycleIT#administratorCanDeactivateAndReactivateDedicatedTestUser	integration / high	TEST_USER_WRITE_ENABLEue; TEST_USER_ID identifies a disposable user; Admin credentials	Expected: Status update endpoint accepts deactivation and reactivation and cleanup restores active state | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-35	SRS-NOT-EXPLICIT; NFR-SE001	Public JWKS endpoint is available through the Gateway	AuthenticationRecoveryIT#shouldExposePublicJwksDocument	integration / medium	API Gateway and Auth Service	Expected: Unauthenticated Gateway request returns HTTP 200 and a keys document | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-36	SRS-NOT-EXPLICIT; NFR-SE001	Student-only probe enforces its role restriction	AuthenticationIT#studentProbeRequiresTheStudentRole	security / high	API Gateway, User Service, Student and Teacher credentials	Expected: Student receives HTTP 200; missing authentication and teacher role receive 401 and 403 | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-37	FR-A004; NFR-SE003	Administrator deletes the synthetic registered user during cleanup	UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails	integration / high	TEST_USER_WRITE_ENABLEue; local Mailpit; disposable synthetic account	Expected: Delete endpoint returns 200 and the created account is removed | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-38	FR-A005; NFR-SE004	Administrator resends invitation for a synthetic invited student	UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails	integration / high	TEST_USER_WRITE_ENABLEue; TEST_USER_MAIL_CAPTU_ENABLED=true; backend SMTP points to local Mailpit	Expected: Resend endpoint returns 200 and the invitation message is captured and cleaned up | Actual: Not executed in this run | Status: Not Run
TC-TEST-021-39	FR-A001; FR-A002; NFR-SE004	Public registration creates a synthetic student and delivers credentials to local Mailpit	UserRegistrationWorkflowIT#publicStudentRegistrationCreatesAccountAndCapturesCredentialsEmail	integration / high	TEST_USER_WRITE_ENABLEue; TEST_USER_MAIL_CAPTU_ENABLED=true; local Mailpit; Admin credentials for cleanup	Expected: Public registration returns 201, Mailpit captures credentials email, and cleanup deletes the account/message | Actual: Not executed in this run | Status: Not Run
TC-AUTH-RECOVERY-003	NFR-SE004	Verify password reset OTP captured for a synthetic test account	UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails	integration / high	TEST_USER_WRITE_ENABLEue; TEST_USER_MAIL_CAPTU_ENABLED=true; backend SMTP points to local Mailpit	Expected: Captured six-digit OTP verifies with HTTP 200 and yields a nonblank reset token | Actual: Not executed in this run | Status: Not Run

Test Case Register

Requirement-linked cases and recorded execution status

Case ID	Requirement	Case / Input	Test file / method	Type / priority	Preconditions	Expected / actual / status
TC-AUTH-RECOVERY-004	NFR-SE004	Reset synthetic test account password with a valid reset token	UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails	integration / high	TEST_USER_WRITE_ENABLE ue; TEST_USER_MAIL_CAPTU _ENABLED=true; backend SMTP points to local Mailpit	Expected: Password reset returns HTTP 200 and invalidates the reset token | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-17	Notification Service ingests supported Kafka events into the owner's notification list	Publish a synthetic QUIZ_CREATED event and retrieve it through the authenticated API	NotificationEventEmailWorkflowIT#supportedKafkaEventCreatesNotificationAndSendsEmailToLocalMailpit	integration / high	TEST_NOTIFICATION_EVENT_ ABLED=true; non-production Kafka broker; API Gateway, Auth and Notification Services	Expected: Synthetic event is stored with its event type and appears only in the authenticated recipient's notifications | Actual: Not executed in this run | Status: Not Run
TC-TEST-019-18	Notification Service delivers allowed notification email through the configured SMTP sink	Capture the synthetic notification email in local Mailpit	NotificationEventEmailWorkflowIT#supportedKafkaEventCreatesNotificationAndSendsEmailToLocalMailpit	integration / high	NOTIFICATION_EMAIL_TEST_ DE=true; backend SMTP points only to local Mailpit; synthetic .invalid recipient	Expected: Notification email status is SENT, Mailpit contains the message body, and created notification/message are cleaned up | Actual: Not executed in this run | Status: Not Run
TC-CAL-026	SRS-NOT-EXPLICIT	Administrator reads the Calendar venue list	CalendarVenueAuthorizationIT#administratorCanReadVenueList	integration / medium	API Gateway and Calendar Service; administrator credentials	Expected: Authenticated administrator receives HTTP 200 and a data field; read-only request creates no records | Actual: Not executed in this run | Status: Not Run
TC-CAL-025	SRS-NOT-EXPLICIT	Admin creates a uniquely named venue in a confirmed disposable Calendar database	CalendarVenueAuthorizationIT#administratorCanCreateVenueInConfirmedDisposableCalendarDatabase	integration / high	TEST_CALENDAR_VENUE_WI ENABLED=true; TEST_CALEND R_DISPOSABLE_DATABASE_ IRMED=true; Admin credentials	Expected: Venue creation returns 201 and appears in the authenticated listing; disposable database is discarded after the run | Actual: Not executed in this run | Status: Not Run
TEST-013-41	SRS-NOT-EXPLICIT; NFR-SE003	Student uploads a synthetic profile image to local test storage	MaterialAuthenticationIT#studentCanUploadAndDownloadOwnProfileImageFromLocalTestStorage	integration / high	TEST_PROFILE_IMAGE_WRIT NABLED=true; TEST_PROFILE IMAGE_STORAGE_CLEANUP_ LED=true; TEST_PROFILE_IMA GE_STORAGE_TARGET_CON D=true; local Gateway and S3-compatible test bucket; Student credentials	Expected: Upload returns 201 with image/png and an object key; test deletes the exact returned key during cleanup | Actual: Not executed in this run | Status: Not Run
TEST-013-42	SRS-NOT-EXPLICIT; NFR-SE003	Student downloads their own profile image bytes	MaterialAuthenticationIT#studentCanUploadAndDownloadOwnProfileImageFromLocalTestStorage	integration / high	Same local S3-compatible test bucket and synthetic upload as TEST-013-41	Expected: Download returns HTTP 200, image/png, and bytes identical to the synthetic PNG | Actual: Not executed in this run | Status: Not Run
